

eDecisions

Make fast informed decisions with eShare

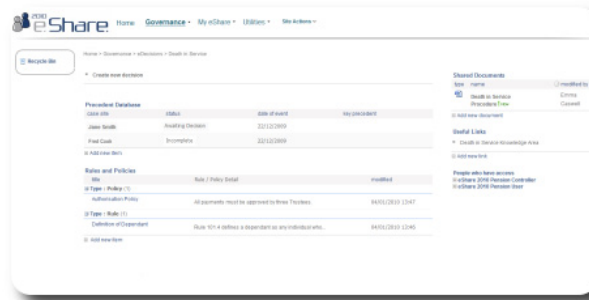

Ensure all decisions are managed simply, efficiently, consistently and are well documented with eDecisions.

Decision making must be secure and well documented

Decisions need to be made quickly, securely and competently, with full access to relevant information which is not easy with dispersed trustees and information.

Bring trustees together with a secure, central workspace for decision making.

Data Protection Act powers mean it is crucial for schemes to handle data securely in order to avoid breaches from occurring and incurring fines from the Information Commissioner's Office.

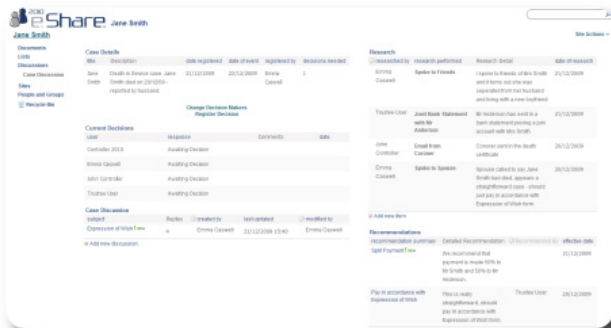

Email and phone calls are not sufficiently secure measures in handling sensitive and personal information - the solution for compliance is a secure, server workspace.

"eShare has the capacity..to give Trustees and Sponsoring Employer a powerful framework to enhance the pensions Governance at a time when the legislative environment places ever increasing demands on limited resources."

- Jerry Gandhi, Group Pensions Director, Royal and SunAlliance

eDecisions protects your data from data breaches and enhances your decision making with:

- A secure and centrally accessible workspace containing all decision information
- All discussions documented using an online, fully visible discussion workspace
- Every decision made being based on all relevant information
- Full visibility of related precedents
- Alerts, reminders and deadlines to ensure timely decision responses
- Automatic alerts when a consensus is achieved

How eDecisions benefits you

Decisions are managed consistently

Decision making is quicker

Collating decision information is simplified

Easy to review similar precedent decisions

Full audit trail to decisions if required

Improves transparency

Overall standard of decision making is improved
